### **PV Loop Trail info**

Old PV trail description reference: <http://www.lunadabayscouts.com/forms/PVLoop.pdf>

Overview map of the PV Loop Trail is on page 98 of this PV trails document:

<https://www.rpvca.gov/DocumentCenter/View/5907/Conceptual-Trails-Plan-PDF>

The PV Loop could be divided into smaller segments ... There are lots of places to park and start. The "Thomas Guide" maps in the above link are hard to follow ... especially for the segment near PV Drive East.

Here are GPS tracks of the whole trail from T128, note that the Rolling Hills section requires a permit

Segments 1&2:
